FRENCH CARVED WOOD BLACK FOREST TURN OF THE CENTURY TRUNK WITH FLORAL DÉCOR

\$2,200

This French carved wood Black Forest trunk circa 1890-1900 features a beautifully hand-carved floral décor. The textured background is left visible in the center of the piece while elegant curvy foliage flanks the sides in the front and top of the trunk. Two side handles allow an easier transport of the piece. Its medium size, dark finish and lovely carved decoration would make this Black Forest Trunk a great decorative object, perhaps in a living room or a den.
