**\$21,600**

A pair of English Regency period bedside chests from circa 1820 with graduating drawers. These exquisite English Regency period bedside chests, dating back to around 1820, are a testament to the elegance and craftsmanship of their era. Crafted with precision and adorned with tasteful details, they bring a touch of history to your living space. Each chest features a distinctive design, with a façade that gracefully transitions from a thin pull-out drawer to four graduating drawers below. This arrangement not only adds visual intrigue but also provides practical storage for your bedside essentials. The diamond-shaped escutcheons on each drawer are both functional and decorative, adding a dash of Regency charm. Splaying feet and a simply carved skirt on three sides lend a sense of refinement and stability to these chests. The thin black inlaid banding on the top is a subtle yet striking detail that enhances their overall elegance. As versatile as they are beautiful, these chests are a perfect addition to your bedroom decor. They can serve as charming bedside tables, providing ample space for storing books, bedside lamps, and other nighttime necessities. Their classic design ensures they'll complement a variety of interior styles, from traditional to transitional and even contemporary. Beyond the bedroom, these chests can find a place in your living room as end tables or in a hallway as accent pieces. Their timeless appeal and exquisite craftsmanship make them an investment in both style and history, adding a touch of Regency grace to your home.
