## **FRENCH 19TH CENTURY WALNUT DINING ROOM TABLE WITH FOLIAGE CARVED FRIEZE**

**\$6,995**

A French walnut dining room table from the 19th century, with foliage-carved apron, turned legs, rosettes and bun feet. Created in France during the 19th century, this walnut dining room table features a rectangular planked top with nicely distressed appearance expected to be seen on a 19th century table, sitting above an elegant apron adorned with a continuous frieze of carved scrolling foliage running along the four sides. The table is raised on four elegant turned legs each interrupted in its mid-section by a square joint block carved with a lovely décor of rosettes. Resting on four bun feet, the table boasts a nicely weathered patina revealing its age. With its clean lines, skillfully carved décor and brown color, this French walnut dining table from the 19th century will make for a great addition to any home, particularly placed in a dining room or breakfast area.
