ITALIAN 18TH CENTURY WALNUT CONSOLE TABLE WITH INLAID TOP AND CARVED FLUTED LEGS

\$7,975

This Italian console table from the 18th century features an exquisite walnut veneered top with delicate inlay. A thin polygonal banding decorates the center of the table, contrasting beautifully with the darker veneer in the surround. The apron is adorned with the same banding, with the addition of floral motifs placed in the center and around the angles. The table is raised on four slender tapered legs, carved with foliate motifs in their upper section. Elegant and refined with a beautiful patina, this Italian 18th century console table would be a stunning accent in any room.
