## PAIR OF ENGLISH VINTAGE BRASS AND GLASS LAMPS WITH OPENWORK MOTIFS ON LUCITE

**\$4,800**

A pair of English vintage brass and glass table lamps from the late 20th century, with openwork motifs, custom made lucite bases and professional rewiring for the US. Created in England during the second half of the 20th century, each of this pair of table lamps features a cylindrical body made of brass surrounding a glass structure. The décor is made of openwork motifs showcasing scrolls imitating the effects of foliage. The lamps have been mounted on circular lucite bases whose translucent quality compliments the brass' golden tones beautifully. They have been newly and professionally rewired for the US market and are ready to be plugged. They measure 25" high to the top of their socket. With their clean lines and ornate décor, this pair of English vintage brass and glass table lamps from the 1970s will bring a stylish presence to any home, perhaps displayed atop an enfilade or on a pair of bedside tables.

Height: 25 in. (63.5 cm)
