PETITE 1800S ITALIAN NEOCLASSICAL WALNUT SINGLE DOOR CABINET WITH TAPERED FEET

\$3,750

An Italian neoclassical period walnut single-door petite cabinet from the early 19th century. This Italian small size cabinet features a rectangular planked top sitting above a single door opening with a round bronze pull. This door opens to reveal two inner shelves, perfect to store any books or other possessions. The piece is raised on four short tapered legs. The grand simplicity of the lines and décor, only present on the pull and discreet incisions of the legs, makes this neoclassical cabinet, circa 1800, a perfect choice for any home.
