SET OF FOUR AMERICAN MIDCENTURY PAINTED CONCRETE MUSHROOM GARDEN ORNAMENTS

\$1,225

A set of four American Midcentury painted concrete mushroom garden ornaments with red tops and nicely weathered appearance. Whimsically inviting, this set of four American Midcentury painted concrete mushroom garden ornaments lends an enchanting touch to any outdoor space. Nestled among foliage or standing sentinel over pathways, these delightful fungi capture the heart with their distressed red tops and gracefully curving stems, reminiscent of classic fairy tale illustrations.

Each mushroom in this quartet boasts a distinct size, creating a dynamic visual hierarchy that's both engaging and harmonious. The tops, showcase traces of red and conjure images of enchanted woodlands, while the white stems provide a lovely contrast.

The colors are tenderly muted by a charming weathered patina that speaks of gentle years passed.

The textured finish on the concrete adds an extra layer of authenticity, ensuring these mushrooms sit as natural elements within the greens and blooms of your garden. The versatile nature of these ornaments allows for creative placement. Arrange them in a cluster for a more dramatic effect, or sprinkle them individually amongst your plants to surprise and delight the wandering eye.

The measurements are from 5.5"W x 4.5"H to 11"W x 10"H
