**\$4,200**

A petite French Louis XIII style walnut side table from the 19th century with tray top, spool legs and carved X-Form cross stretcher. This charming petite French Louis XIII style walnut side table, dating back to the 19th century, captures the essence of historical elegance and functional design. The table is distinguished by its tray top, featuring canted corners that add a delicate, architectural detail to the piece's silhouette. This design not only enhances the table's aesthetic appeal but also provides a practical edge to prevent items from sliding off, making it an ideal spot for displaying cherished collectibles or serving drinks. Beneath the tray top, spool legs lend a touch of intricate craftsmanship, their rounded forms creating a pleasing visual rhythm that is both sturdy and stylish. These are connected by a carved X-Form cross stretcher, at the center of which sits a turned finial that mirrors the shape of the legs. This thoughtful detail not only adds stability to the table but also serves as a focal point, drawing the eye and emphasizing the table's craftsmanship. The table's compact size and versatile design make it a perfect addition to any home, easily fitting into tight spaces or complementing larger furnishings. It could serve as a side table in a living room, holding a lamp or books, or as an accent piece in a hallway, welcoming guests with a vase of fresh flowers. The warm tones of the walnut wood, combined with the table's historical design elements, will bring a sense of richness and tradition to any interior, from classic to contemporary. The petite French Louis XIII style side table is a testament to timeless design, offering both beauty and utility to today's homes.
